

Stay Healthy with an Annual Flu Shot

EHS is pleased to offer the quadrivalent influenza vaccine for the 2020–2021 flu season!

The quadrivalent vaccine includes two type-A strains and two type-B strains. Getting an annual flu vaccine is the best way to protect yourself and others during flu season. This easy step can:

- Reduce flu illnesses
- Reduce missed work
- Reduce doctors visits
- Prevent flu-related hospitalization

Who can participate?

| ELIGIBLE PARTICIPANTS | FLU VACCINE FEES |
|--|------------------------------------|
| Employees & Spouses on the District's BCBS PPO Plan | No cost to you, covered by NIHIP |
| Employees & Spouses on the District's BCBS HMO Plan | No cost to you, covered by NIHIP |
| Employees & Spouses <u>NOT</u> enrolled in the District's Insurance Plan | Self-pay, \$34.50 |
| Retirees age 64 and younger on BCBS PPO Plan | No cost to you, billed to BCBS PPO |

Participants must present their BCBS of IL PPO card at the time of service.

We care about your safety! Prior to entering the flu vaccination area, all participants are required to:

- Wear a face mask covering both nose and mouth
- Review the COVID-19 questionnaire and respond to all questions
- Have their temperature taken using a non-touch thermometer

Important: Participants will NOT be eligible to participate if they are not wearing a mask, have a temperature of 100.0 degrees or higher, or have any COVID-19 related risk factors as noted in the questionnaire.
