**Administrative Reports**

**Presentation of Preliminary Staffing Plan for FY22**

Dr. Dalton stated she has developed the preliminary staffing plan for FY22 in the traditional manor. This plan does not consider any possible COVID mitigations and there is a different group exploring those options. This plan is based on enrollment projections. The plan includes a roll up of dual language classes at Country Meadows.

Core Classroom Teachers – No change for FY22

Specials Teachers – No change for FY22

Special Education Teachers – Reduce 1 FTE at Willow Grove and 1 FTE at Woodlawn, increase 1 FTE at Ivy Hall for an overall change of (-1) FTE. No changes in related services.

Instructional Support – Reducing 1. FTE at Willow Grove and increasing .5 FTE at Twin Groves and Woodlawn result in no change for FY22.

ESP – No changes at this time.

The overall change to the staffing plan at this time is a decrease of 1 FTE. Dr. Dalton will continue to update the Board as registration moves forward. She added that kindergarten registration has doubled since the enrollment projection report on February 2, 2021, and she expects to meet the projection of approximately 240 kindergarten students.

**Superintendent's Update**

Mrs. Schmidt reviewed the metrics and mitigation changes since March 2020 to the present. The CDC guidelines indicate substantial transmission (orange) but incidence rates are trending downward and could be moving to moderate transmission (yellow) soon. Lake County is currently plateaued at an incidence rate of 10.3 – 10.6/100000. The CDC also indicates that once school is open for in-person learning, there would be no need to close even though there may be a rise in the community transmission rate. The CDC

and Lake County prioritize in-person learning for the youngest and most at risk students. Even with the vaccine being widely distributed to educators, layered mitigation strategies will remain in place for the foreseeable future including masks and appropriate physical distancing.

The District processes about 2700 population screening samples per week. Of those, 9 people were identified for further testing, 7 of whom tested positive for Covid-19. All of these people were asymptomatic. Contact tracing resulted in 0 people being identified as close contacts. This indicates that the population screening is working as intended.

The closed pod vaccine sites at Round Lake and Stevenson High Schools have been open since early February and are anticipated to remain open for about 10 weeks until all educators have received both doses. The ISBE continues to survey school districts regarding how many educators have been and still need to be vaccinated. The data from these surveys is used to monitor supply chains. As of the most recent survey, 88% of D96 educators have received their first dose, and 13% have received their second dose. A total of 96% of D96 educators intend to be vaccinated.

Based on travel order guidance, D96 will not be adding domestic travel questions to the self-certification process. Those traveling internationally must present a negative PCR result 3-days before boarding an airplane to return to the United States. With our current population screening in place and working so effectively, we will not be questioning employees' travel plans for spring break. Families and employees who do intend to travel for spring break via plane, train, or ship, will be asked to participate in the population screening for 2 weeks following spring break. Families may also choose to quarantine for 10 days instead of participating in the population screening.

D96 will continue population screening until at least 2 weeks post spring break. Once the majority of educators have been fully vaccinated, their population screening can be discontinued. Students will start attending in-person on Wednesdays beginning March 3, 2021. Monday, March 8, 2021, fully remote families will receive a survey asking if they would like to opt-in to in-person learning beginning March 29, 2021 for the remainder of the school year. The survey data is due Thursday, March 11, 2021. Administration will review that survey data March 12 – 15, and make plans to expand in-person learning. Expanded in-person learning plans will be announced to the staff and community March 16-17, 2021. On April 12, 2021, any possible expansion of in-person learning will begin.

Mrs. Schmidt reviewed the scenarios that would require a return to full remote learning. These include a local or state decision to do so, a cluster of positive cases in a particular school, or a lack of internal capacity with a high number of adults unavailable. She reminded everyone to continue to adhere to all safety protocols, both in and out of school. The KCSD96 model allows for 100% of students to return in the hybrid model. Once the 6 foot social distancing is relaxed, in-person learners can come back 5-days per week. KCSD96 could likely accommodate a 3 foot social distancing requirement with 100% of students back 5 days per week.
