Report Card Purpose:
The purpose of the District 96 Middle School Report Card is to clearly communicate student achievement of grade level specific learning targets and student learner responsibilities.

REPORTING SCALE FOR ACADEMIC LEARNING TARGETS

.5 indicates partial mastery of the next level
Extends (4.0): In addition to the "Mastery" criteria, the student demonstrates more complex learning that goes beyond what was explicitly taught. This category may not apply to some learning targets. *ONLY TARGETS WITH A DOUBLE ASTERISK (**) CAN BE EXTENDED.*
Mastery (3.0): The student shows mastery of the learning target. The student grasps and applies the key concepts, processes, and skills for the grade-level. This is the expectation for students in the final trimester a learning target appears on the report card.
Developing Mastery (2.0): The student is beginning to, and occasionally does, demonstrate understanding of the target. The student is able to grasp and apply some key concepts, processes, and skills but may need additional support at times to be successful.
Not Mastering (1.0): The student is not mastering and has made little progress toward mastery of the target. The student is working on concepts, processes, and skills learning to grade level work. The student needs additional support and practice to show progress towards grade-level expectations.
No Grade (NG): The student was not assessed during this term for this standard.
Not Enough Evidence (NEE): The teacher does not have enough evidence to determine mastery. See comments for more information.
