Top 10 Kildeer Facts

by: Madden, 4th Grade

Hello! Today we will be talking about 10 things you never knew about Kildeer! This list is not ordered in any way. These are just random fun facts with detail about Kildeer school. They might be here to just wow you or, you may learn a thing or two about Kildeer! So let's get to it!

10. Laptop borrowing. This is a very little known fact about Kildeer but if you go to EXL and to the right by the tech support sign, there is a little cart with a piece of paper on it containing laptops. With your teacher's permission of course you can go down and borrow one! You must write your name and your teachers name on the paper and you can't just borrow one for no special reason, but they are very handy to have!

9. Mini recording studios. These black soundproof boxes are in your classrooms and are very helpful while recording videos! They are soundproof, meaning no sound from the outside can disturb your recording and your recording sound can't disturb the outside! To use them you put your iPad inside of the box and talk into the iPad and viola! A perfect recording thanks to these helpful little boxes!

8. Book holding. When someone else has a book that you want from the library, you can put it on hold. You tell them your name and they will notify you once someone has returned the book! It is very helpful for if you really want a certain book but someone else has it at the time. And, no one can take it within 2 days of them notifying you. If you don't claim it by then, it is up for grabs though.

7. Tech support. If something is wrong with your iPad or there is issues with anything tech related, you can ask your teacher to go to tech support. There is a sign pointing to it in the library, you can't miss it. There they will do their best to fix your iPad or tech related item and make it as good as new! (You can't bring your home iPad or computer and get it fixed here, this isn't an Apple store).

6. Print Graveyard. In the library, there are two bulletin boards with a printer in front of them. On those bulletin boards lies the print graveyard. Whenever someone prints something but forgets to claim it, it stays in the print graveyard. Things have been there for years at a time. It is quite funny to see the dates on some of them. This part of Kildeer does not have much use, it just is a pretty fun fact.

5. Library Book count. This is another fun fact but there are over 10,000 books in our school library. That is more books than humans have bones! And these books all vary in genre and age level so anyone can find the perfect book!

4. Playaways. Playaways are little MP3 looking devices that you can find in the library. These little things come with books and the MP3 has an audio recording of the book so you can listen to it while you read! They are pretty fun and can be found in the back of the library. You need headphones as they are not included but that's it! Everything else is included. There are only some books that come in playaway form but they are a pretty good selection.

3. BasementCeption. Back then, Kildeer used to have a basement within the basement. I got this information from Mr. Pazol. The basement within the basement used to have a shower and a sink so I think it may have been a break room of sorts. This information may not be that useful but it is quite interesting! I don't think it is in use anymore but it was probably cool while it lasted!

2. Champ. This one is pretty cool, CJ was not our first mascot! Our old mascot was a cougar named champ. When he retired, we had a huge vote for who our next mascot should be. And the winning vote was CJ which actually stands for Champ Junior after Champ. Champ looked like a taller, yellower and less modern version of CJ. And finally, he actually looked like a cougar!

1. Trailers. A very long time ago, when the school was first being built and there was not enough room for all of the teachers. In the bus parking lot before it was a parking lot, they had several trailers that some teachers had to teach from! Imagine having your class in a trailer. There were a few of these trailers but after the school got an expansion, they were torn down and never to be seen again.

*Thank you for reading the top ten things you never knew about Kildeer!
I hope you had a good time reading and learned a thing or two about the school!*

Earth Day

by: Laila, 4th Grade

Earth day is celebrated on April 22. It has taught people everywhere what they can do to take care of our planet, the history behind this day, and facts you should know.

Earth day has inspired people all around the world to help the earth. People do many things that you can do to on earth day. You can ride your bike, plant something, and more! People can do many things but you don't have to do a big thing, you just have to do something that will effect the earth in a good way.

In addition the history of earth day is an event inspired by an environmental U.S. activist Sen Garyold Nelson from Wisconsin. He was concerned that the environment wasn't really important in politics, so he made Earth day, on April 22, 1970. On that day it was estimated 20 million people nationwide attended festivities that day.

Furthermore there a lot of facts about Earth day. Did you know on Earth day in 2012, more than 100,000 people rode their bikes in China. On Earth day in 2011, 28 million trees were planted in Afghanistan. In 2016, on Earth day more than 1 billion people in about 200 countries around the world participated in Earth day activities.

On Earth day many people do many activities to help the earth. Earth day has inspired people all around the world to do something great for the environment and earth, this great day also has a history behind it, and there are many extraordinary facts. Even if it might not be earth day you can still do something good for the environment and earth.

April Fools Origin

by: Jinyuan, 5th Grade

Have you ever wondered why people play pranks on people on April fools? Well you are about to find out! There is no certain reason but one reason that April fools happened was when in France they switched from one calendar the Julian calendar to the Gregorian calendar. When it was the new year people were confused and were celebrating even though it was not. Back then they did not have modern communications so most people didn't know they had switched so it happened that this was the start of April fools. Another theory was that it was the spring equinox when weather was very unpredictable they were saying that Mother Nature was trying to fool everyone. Or there was a certain kind of festival in Rome that happens at the end of March called the hilaria festival when people went undercover and in disguise. This started spreading in Scotland in the 18th century where they put kick me signs on people's rears. There have been some super cool pranks that have happened on April fools. Some of them like in 1996 Taco Bell told many people they had purchased the liberty bell and were going to rename it the liberty Taco Bell. In 1957 the BBC reported some farmers pulling spaghetti off of trees for a prank. Some baseball fans that read sports illustrated were tricked into thinking a pitcher could pitch 168 MPs. In 1989 one time a Swedish comedy show announced that its space needle fell many people believed it and rushed to help. These are some of the things that led up to April fools. Have FUN!!!

How to Celebrate Easter

by: Alex, Grade 1

- 1 in Easter you can hunt for eggs and count how many you have.
- 2 you can get eggs and decorate them with different colors and designs.
- 3 You can pet a bunny at a pet store and have it as a pet and play with it.

EASTER HOLIDAY VS EVIL HOLIDAYS

Page 2

BY: KATIE, GRADE 3

Hi! I'm Ed, the Easter Bunny!! And I've got to say, Easter Holiday is waaay better than Evil Holidays.

Wut r u doing here, skunk-butt? Uh, just look at Easter Holiday's dumb, and lame traditions! They don't even fight!! That's why Easter Holidays is so imature!!

But Evil Holidays does have a egg there. I don't like to fight! So can we end this conversation now? Chocolaty please????

AN EASTER STORY

by: Aliya, Grade 2

One day It was Easter I looked all over for the Easter eggs I couldn't find them anywhere! Oh my oh my did he come or not! did the Easter bunny forget me? Please come Easter bunny please come! and the next day I found a note on my pillow it was from the easter bunny. he said so sorry I didn't come I was really busy! So I came today and you find the Easter eggs really easy and he did

History of Easter Bunny

by: Jinyuan, 5th Grade

It is Easter right now and you stare at the fluffy bunny mascot that everyone has lined up to take a photo with. Have you ever wondered why Americans celebrate Easter. The Easter bunny for Easter was created because in medieval times the hare was a very popular church art that people painted in churches. Since it breeds and has a lot of children it became very popular. Since a legend for an Orthodox Church was that to not waste eggs you had to boil or roast them to eat them. You may have wondered why there are Easter egg hunts that celebrates Easter. One reason was that German immigrants came to America and brought the custom of Easter egg hunting to America. Here the Americans probably combined the Easter bunny and the eggs so this was how Easter egg hunts were made. The reason that the eggs were dyed were because the original eggs are red to celebrate the blood that Jesus Christ shed for Christians. Americans wanting to make it fun for children of all religions either colored the eggs all different colors or modern Easter eggs sometimes are chocolate eggs wrapped up in foil. "YUM!"

TOP 3 THINGS TO DO IN SPRING

by: Jingyi, 5th Grade

This is a list of three things to do in the springtime!

Playing outside

Playing outside is essential for the spring because it's just getting warmer. In the summer, it's really hot, and in the winter, it's too cold. Spring weather, on the other hand is perfect. You can play in your backyard or anywhere else! You might also want to play with a friend!

2. Planting a garden

Spring is the perfect time to do this. Why? Because the weather is warm and perfect. You just have to buy some seeds, sow the soil and nurture the plants. Best of all, you can plant anything! For example, flowers like daffodils, zinnias, and tulips. Or fruits or vegetables like broccoli or tomatoes. Before long, if you do it right, you'll have a beautiful blooming garden!

3. Go hiking

After a long winter, you can get exercise by hiking. Whether it's at a local forest preserve or a faraway place, hiking is always a good way to savor the new warmth and get some exercise. Just make sure to wear the proper attire!

MINECRAFT BOOK REVIEWS

by: Caelan, 2nd Grade

Ashlyn, 5th Grade

1) Construction

The Construction Handbook is phenomenal, which is why it is ranked number one on this list. The book features incredible buildings and designs in Minecraft by experienced builders such as FyreUK.

This can help someone who is new to Minecraft's Creative Mode and needs ideas. The pictures of the master builders' creations consist of unbelievable replications of real buildings. The book also provides detailed steps on how to create awesome creations such as ships, houses, bridges, and floating islands, with new and interesting techniques.

2) Essential

Minecraft's Essential Handbook gives an all around view of Minecraft for beginners. This handbook is probably the most useful manual, and is a must for all players that are starting out in Minecraft. The book teaches you how to breed animals and how to farm, ensuring that you'll never go hungry.

It also gives you valuable information on the controls for all platforms. You can learn what to do and what not to do with two players' first-hand experiences with the game. Learn about the creators Notch and Jeb and how Minecraft got started, with just an idea.

3) Combat

The Combat Handbook shows different ways to be a skilled player in Minecraft's Survival mode. It shows ways you can protect yourself from hostile mobs, such as creepers, spiders, and zombies. It gives you a full account on each mob, complete with the amount of health points, what it drops when you get rid of it, and the best ways to get rid of the mobs.

It also gives events of other famous players' experiences. It's informative use is a strong guide for inexperienced Minecraft combat fighters.

4) Redstone

Minecraft's Redstone book comes in handy when trying to protect your base. It features amazing mechanics such as piston doors, traps, and roller coasters. Trap your greatest enemies with custom designs for deadly traps. See all of the

wow-worthy contraptions made by fans of the game worldwide. Learn how to create the classic Jeb door that can be activated by a flick of a switch, revealing a secret room or base. Discover how to light redstone lamps with redstone torches and blocks, giving your room a golden glow.

A QUESTION FOR MISS OHNSTED

by: Mason, 2nd Grade

Parth & Skylar, 5th Grade

What do you like doing in April?

Ms. Ohnsted likes to take walks, and to celebrate any Holidays in April for example Easter.

SAVE SEA TURTLES

Page 4

by: Singyee, 5th Grade

Shut up and recycle.

Turtles are pretty cute. But sea turtles are cuter! But everyday, they are dying from pollution in the ocean. They could mistake plastic bags and bottles for jellyfish and could get choked by other plastics. All these plastics are garbage, thrown into the sea. But you are not helpless. These are some ways you can help protect sea turtles.

First, you can recycle plastic you use. Almost everyday you use plastic straws, cups, or utensils etc. if you throw these things out, they could end up in the ocean killing turtles. But if you recycle them instead, they will be...recycled. Even one little thing can save a turtle's life.

You can also recycle these things yourself. This is called reusing. If you are done drinking a bottle of water, don't throw the bottle away, fill it up again and reuse it! But that is not as good for your health. Instead, buy reusable water bottles.

Also, help Jane and I save the sea turtles by joining our "Save the Sea Turtles campaign. Help us by:

Opinion: Student Conferences

Which Do You Like?

by: Jinyuan, 5th Grade

For the last month there has been a change in conferences. The students now have to make a slide and present it by themselves to the parents. Do you like this way or do you not like this way? Different students have different opinions. I think that I do not like it because the parents only get to see the students point of view on the schoolwork that is given. The parents do not get to see the teachers perspective on how the student is doing in class. If the student only posts the things that they did good in and did not include anything bad. What will the parents learn about how the child is doing? If I were to change something I would still have the students do a presentations but we can also have the teacher participate a little and afterwards after the students presentation you can have the teacher participate a little.

That is my opinion on the student conference. What do you think about the conference?

Student interview

When asked to comment fellow student Manu says that he likes the collaborative conferences suggesting no changes. He says it is fun to interact with your parents during your conference. Fellow student Jingyi says that she rates the conference 75% and wants the teachers to participate a little more and do more than observing.

Opinion: Cafeteria Food

by: Rachel & Isabel, 4th Grade

Did you ever think that Kildeer should have more varieties of food. Some reasons are the food isn't always healthy, but kids at the school like the food though it isn't healthy.

The food isn't always healthy because we have fried foods at lunch and fried foods are usually high in calories and low in nutrition. Some foods that are fried are the chicken sandwiches, the chicken tenders and the chicken nuggets.

However there are some good things about the school food. One thing is that kids enjoy some of the foods. One food that a lot of kids like is cheese burgers. Most kids get very excited when it is cheeseburger day. Another food kids like is some of the fruit that goes with their lunch. Personally me and Isabel like the strawberries. Those are some good things about the school food.

To conclude this, the cafeteria food can be good and bad. Kids enjoy the food but the food is not always healthy.

Roller Skating in P.E.

by: Caelan, 2nd Grade

In March, the week before spring break, all of the Kildeer Cougars have been having fun roller skating! Let's hear what some students have to say about this unit.

Jannah, 1st grade

Q: What do you like about roller skating?

A: I like that's it challenging

Q: Is there anything that's hard for you?

A: For me, getting my feet of the ground is hard because the roller skates are heavy. It's also hard for me to balance.

Isaac, 2nd grade

Q: What do you like about roller skating?

A: It's my favorite thing we do in gym all year long.

Q: Is there anything that's hard for you?

A: There's nothing hard for me in roller skating.

Julia, 3rd grade

Q: What do you like about roller skating?

A: What I like about roller skating is that it's fun.

Q: Is there anything hard for you?

A: Nothing is hard for me in roller skating.

So now you know some students opinions on roller skating. And who knows? Maybe their opinions will change next year.

Top Five Places I Think You Should Go For

Summer Vacation

by: Chloe, 4th Grade

I think you should go to Canada. I think you should go to Canada for summer vacation because if you go to Canada you would see the Niagara Falls. 30 million people visits in a year. It is beautiful in the summer. It is blue and it is water. It is a fall. A fall is water splashing down. The falls are frozen in the winter. The Niagara Falls is one of the wonders of the world.

Niagra Falls

I think you should go to China because you would see the wonders of the world like the Great Wall of China. The Great Wall is in Beijing, China. Most people go to Beijing, and Shanghai because Beijing is the capital of China. You would want to go to go to Shanghai because it is one of the biggest city. The Great Wall of China is a big Wall in China. It is 13,170.696 miles long. It is the longest wall.

The Great Wall

I think you should go to Arizona because you can see another wonder of the world. It is the Grand Canyon. It is red and brown. It is built with rocks. It is slippery in January. So don't go in January. The Colorado River carved the Grand Canyon beginning 5 million to 6 million years ago. It is very big. The Grand Canyon is also a wonder of the world.

Grand Canyon

I think you should go to Florida because in Florida you get to go to Disney world. You get to go on rides. There is roller coasters. There are 46 rides at Disney world. At Disney World you get to see Disney characters like Mickey Mouse, Minnie Mouse, Elsa, Anna, Olaf, Goofy and many other Disney characters. You can only see the Disney characters in Florida because it is the original place to go to see the Disney characters.

Disney World

I think you should go to Massachusetts because you can go to visit the best university. It is Harvard University. There is also Brown University. It is the top University.

INTERVIEW WITH MADDEN

By: Landon, 4th Grade
Azlan, 1st Grade

To end off newspaper, let's dive in to the start of newspaper! With nothing less than an exclusive interview with the creator of the club, Madden Zuccaro! Now let's get to him!

It all started off with a thought. I thought the talented writers of Kildeer should have an opportunity to show off what they know! I knew that this was something that needed to happen and after some research I discovered that Kildeer had a newspaper club before but it was understaffed so it had to close down. Then I realized, what if I can bring this back, what if I can revive the old myth known as newspaper club.

Then, it came to me. I had the coolest teacher ever! She would help! I went to none other than Ms. April to seek help on my idea. She loved the idea and relayed it to the principal. It took several months but then on an average day during math, I heard the best news of the year from my best friend. "It is happening!" I was confused at first but then she elaborated, I was ecstatic! I realized that the club was no longer just a thought. It was now a reality. And here I am today, filling in an interview that I made possible.

End of Year Interview

by: Jessica, 5th Grade

Are you excited for the end of the year? Why?

Person 1: Singyee Liu

No, because I don't have anything planned and there isn't anything exciting happening during the summer. And even though we are moving up a grade to Woodlawn, I'm not really excited because I go there every day for math.

Person 2: Jingyi Wu

Yes, because we can finally go to middle school. Going to middle school is a new experience and I think it's going to be exciting!

PAW PRINTS INTERVIEW

By: Raina & Dora, 4th Grade

Since newspaper is almost done, We thought it would be nice to interview some kids about about Paw Prints. Enjoy!

Alex K: 1st: "I think It's fun" he says "I think it's fun because we do stories and stuff"

Saanvi G: 1st: "we get to write so many articles and talk to our friends on what to do with a partner.

Rachel F: 2nd: "it's fun" "it's great."

Madden:4th "I love it and I am proud of it

Laila:4th "it's great"

Landon:4th " it lets me write about what I want"

Jinyuan: 5th "I think it is pretty good"

Singyee: 5th "I think it is very helpful helping kids to write"

Jessica:5th "I really like it because it helps develop skills for younger grades and gets sent out my family to see"

Thank you. Goodbye!

Evil Raindrops

by: Aaradhya & Daanya, 3rd Grade

Plop plop plop, that is the sound of raindrops falling from the sky. I don't like going outside when it's raining so I was watching a movie. The movie was called Evil Raindrops. It's about evil raindrops that want to dominate the world. Right at that minute I got a text from my friend. She said what time do you want me to come. I said 5:00 would be fine because that was when the movie was going to end. When the movie was over I went downstairs and I heard the doorbell ring. I open the door and I saw my friend Alia and Sofia. We went to the basement. We went to my game section and I found a board game that I had never played before. When I open the board game I saw the instructions and they were extremely odd. The first one said that you should never play the game alone. The second one said that you should be careful what you wish for. The third one said that you might get sucked into the game. The fourth one said that death may be involved. Sofia said oh my gosh that sounds so good let's play that game. The first thing that we had to do was we had to pick our characters names. Sofia picked Vic short for Victoria. Alia picked Mia and I picked Sally. When we picked our names we started to feel weird and suddenly a card popped out. Alia picked up the card she read "now that you have picked your characters name now you must choose what you would like them to do what happens to them like maybe they'll have something to do or die and be eaten by an alligator, either way it's up to you." Sofia said "I want my character to be the boss. Alia said "I want to be the person who carries all the things just in case of an emergency." I said that "I want to be the girls could do all the stunts and go over the things and be the popular girl." Right at that minute my mom came down with a book in her hand. We all stared at her as she walked up to us. Our stomachs were still hurting but we did not tell her. She said "I thought that maybe you girls would want to hear the weird things that happened this year." The first thing is that there was a flood in a barn and I was there screaming my head off. My head actually did pop off for a little bit and the one you are seeing is a fake. I said "I don't remember that." She said she was kidding and we all took a big breath. We asked her if she had a picture of the flood and she said it was in the games section. She walked over there and searched for the picture and pulled out a small piece of paper and showed it to us. It was a little blurry but we could see it. "Well I am going to make some chocolate chip cookies so why don't you play your game while your at it" my mom said. When she left there was a hug rumble and then suddenly it said on the wall you want evil raindrops, I'll give you evil raindrops. We all ran upstairs but nobody was there. Soon there was a flash of light and we got sucked into a weird jungle. We tried to call for help but we were all alone. Then suddenly Sofia said "look at the way we are dressed!!" I looked around and saw that we were all dressed up like we wanted our characters to look like. Sofia had a fancy dress with a small sweater on her and she had her hair in a bun. Alia was wearing a black sweater and white pants with a fancy purse that had everything in there just in case of an emergency. I had a white shirt, leather jacket, and my pants were black ripped jeans and my hair was down. Soon rain was pouring hard and all the animals were heading towards us. "Ok who wished for evil raindrops." Sofia I pointed to Alia who was was hiding between me and Sofia. Soon it was pouring harder than ever and the animals had sniffed Alia's purse. That's when I remembered that Alia had everything in case of an emergency. She took out a spray and sprayed on the animals and they all ran away. Soon a colony of raindrops started to chase after us, that's when we ran all the way to a big giant palace made of ice. Suddenly the raindrops took us to there master and that's when Alia took out a jar and captured the king raindrops and threw it at the sun. Then all of a sudden some clouds appeared and we were sent back home.

Earthquakes

by: Caelan, 2nd Grade

It is a average day in your life. Suddenly, the ground beneath you shakes. You see trees falling. The glass on houses shatter. The ground breaks apart. You're in a earthquake! Earthquakes happen every single day. Most are not felt, though. In the United States, most earthquakes occur in Alaska. This state has 11% of the earthquakes worldwide, and 3 out of the 6 largest earthquakes in recorded history were located there. Earthquakes are formed when two parts of land push against each other. They do this for millions of years. When they suddenly break apart, an earthquake is created. A famous earthquake is the San Francisco earthquake of 1906. Surprisingly, the earthquake only resulted in doing one fourth of the total damage. That's because the earthquake created a giant fire. This fire destroyed most of the city. The earthquake also destroyed nearby towns. In conclusion, earthquakes are a very dangerous natural disaster.
